

Honeylite LP Series

The Honeylite LP Series are designed to snap-on to PAR lamps, including the Designer 16 lamp. All LP Series are supplied with a 1/4 x 235 louver for 45° cut-off. Holders are made from cold-rolled steel. The holder and louver are finished with our black proprietary polymer coating in an eggshell finish. All LP Series (except for the LP16) will accommodate a lens, for additional light control. Note all lamps shown are by others.
